May 10th, 1919

The Selection Committee for the Rhodes Trust,

Fredericton, N.B.

Gentlemen:

I understand that Mr. H. A. Browne of the University of Toronto is an applicant for one of the scholarships to be granted to Newfoundland this coming autumn, and Mr. Browne has asked me to support his candidature.

Mr. Browne will in all probability receive his degree of Bachelor of Applied Science with honours at the Convocation at the University on the 6th of June of this year. He has been well trained and will I am sure prove himself to be an excellent candidate in so far as academic requirements are concerned.

In addition to this he has taken a prominent part in the University in debating, and was elected the Vice-President of the Inter-collegiate Debating Union of Toronto, having by means of his successful debating brought the Faculty of Applied Science into the finals for the award for the first time in its history. Mr. Browne has also taken a great interest in public speaking in the Faculty of Applied Science and in almost every other branch of student activities. I may therefore very confidently recommend him as possessing the qualifications on which the award is ordinarily given, and I should think that there might be few, if any, who are as well equipped and entered for a scholarship.

Yours sincerely,

President.

the resolutions which were drawn up by the Universities to which I have referred.

Yours sincerely,

President.
